

Think Safety

*FREE Safety Poster!
Just print and hang-up in
your facility to help promote
a safe working environment!
NOTE: Please do make copies.*

Lockout - Tagout

This poster cannot prevent injury. We can only suggest safety practices.

Last year Infra-Net Publishing mailed over 10,000 safety posters to recycling facilities. The response was overwhelming and we had many requests for extra copies. This year we have instituted a new program to send safety posters to these same facilities by e-mail. If you want to become part of this free program please e-mail your request to safetyposter@recyclecat.com. Also visit our web site to use our free services, learn about our industry and browse our book store.
